CONTROL OF ILLINOIS CENTRAL.

War Being Waged with Even More Fierceness in England.

New York, Dec. 7.—Echoes of the war which is being waged in Europe over the control of the Illinois Central railroad between Stuyvesant Fish and the Harriman intersts are beginning to reach America and they show that the campaign is being waged with even more fierceness in England than it was here.

Mr. Fish's representatives are laying great stress on the point that the alliance between the Illinois Central and the Union Pacific is of more value to the latter than to the former. In reply to this, Cornelius Vanderbilt, a director of the Illinois Central, but not connected with the Union Pacific, has issued a statement which is being used by the Harriman interests as an argument with the English stockholders whose proxies Mr. Fish is seeking.

Mr. Vanderbilt states that the alliance with the Union Pacific and the Southern Pacific is of the utmost value to the Illinois Central and that if Mr. Fish is successful in obtaining control of the road his attitude will make it impossible for those roads to continue their relations with the Illinois Central.

SUICIDE OF ACTRESS

While the Audience Waited Clara Bloodgood Took Her Life.

BODY WAS FOUND ON BED

Noted Actress Sends Bullet Into Her Head at the Hotel Stafford in Baltimore—Nervous Breakdown Cause of Rash Act.

Baltimore, Md., Dec. 7.—Mrs. Clara Bloodgood, the actress, committed suicide by shooting in her room at the Hotel Stafford here on Thursday evening.

Mrs. Bloodgood's body was found lying on the bed with a bullet hole through the roof of her mouth. Nearby lay a book entitled "How to Shoot Straight," and a 38 calibre revolver with three chambers empty. She attended a matinee performance at Albaugh's theater Thursday afternoon and returned to her hotel about 4 p. m., seemingly in the best of spirits.

She Was Dead at Curtain Time.

Later, when it was time for the curtain to rise for her own show at the Academy of Music, where she was appearing in "The Truth," she had not put in an appearance, word was sent to the Stafford, and a bell boy was sent up to her room. Just as he approached the door he heard a pistol shot. Hurrying back to the office, he notified the clerks of what he heard, and an investigation was made and Mrs. Bloodgood was found stretched on the bed as described.

Before retiring to her room, she had a talk with her stage manager, John Emerson, who declares that he observed nothing unusual in her demeanor.

She Feared Prostration.

The only motive he can ascribe is that Mrs. Bloodgood feared an attack of nervous prostration. She had been working very hard, he said, and she feared a breakdown.

Mrs. Bloodgood left a note addressed to her husband.

The audience at the Academy of Music was dismissed with the announcement that there would be no performance owing to a sudden indisposition of Mrs. Bloodgood.

Members of Mrs. Bloodgood's company are a unit in declaring that they can assign no cause for her act other than the possible one of nervous breakdown due to overwork.

Created Sensation.

New York, Dec. 6.—The news of the suicide of Clara Bloodgood at Baltimore created a sensation in theatrical circles here.

As Mrs. John Bloodgood she held a high position in the society of New York, and general esteem continued to be hers after she made her debut as an actress.

New York, Dec. 6.—Friends of Clara Bloodgood, the actress, who killed herself in Baltimore, state that she had been somewhat worried over the financial flurry in New York, although they do not believe that this worry had enough effect on her mind to cause her to kill herself. It is said that a large sum of money recently left to her by relatives was deposited by her in one of the banks which recently closed its doors. Intimate friends state that the sum tied up in the bank is at least $250,000.

CHILD BURNED TO DEATH.

Horrible Death of Little Three Year-old Girl.

PAY DEPOSITORS IN FULL.

Declaration of Officials of Kansas City Bank of Commerce.

Kansas City, Mo., Dec. 7.—There was no evidences of a run o nany of the local banks in the early hours of Friday.

Bank officials generally give it as their opinion that the crisis resulting from the failure of the National Bank of Commerce was over and that normal conditions would soon exist again. They insisted that there was no need for alarm and that the closing of the Bank of Commerce really cleared the atmosphere and marked the first real step toward a restorsion of confidence.

Many depositors of the Bank of Commerce were reassured by the declarations of officials of that institution that it would not only pay depositors in full, but that stockholders also would lose nothing. James T. Bradley, appointed receiver by the comptroller of the currency, had no statement to make. Mr. Bradley was the receiver and wound up the affairs of the First National Bank of Topeka, which failed as a result of the collapse of the enterprises of the late C. J. Devlin, in 1905.

Gibson, of the Columbus schools, is to speak of industrial education. President G. R. Glenn, of Dahlonega, is to discuss the county school system as compared with the district system.

DEMANDS $10,000 DAMAGES.

Over-Strenuosity of Stage Heroine Is Cause of a Suit.

New York, Dec. 7.—The over-strenuosity of the heroine in the melodrama "Convict 999," was the cause of a suit which has been filed against the lessees of the New American theater in New York. The plaintiff is Miss Fanny Silver and she demands $10,000 damages. Miss Silver attended a performance of the melodrama November 13. She occupied a seat in the front row.

In the last act of the play the heroine prevents the villian from attacking the hero by seizing a sledge hammer and menacing him with it. On the night Miss Silver saw the play, the heroine put so much strength into her acting that the head of the sledge hammer flew off and struck Miss Silver in the face, breaking her nose and knocking out two teeth. Hence the damage suit.

Overcome by Gas, Death Results.

Birmingham, Ala., Dec. 7.—Louis Hicks and Robert Morgan, both white, were found dead at the big furnace plant of the Tennessee Coal company at Ensley at an early hour Thursday morning and the indications are that they were overcome by gas and that death was almost instantaneous. The two men were working on a boiler and it is supposed that the gas explosion from one of the stoves adjoining the boiler were shifted by the wind and a large volume of the deadly gas covered the two men. They were taken unawares and death came to them quickly.

Bibb's Books Probed by Jury.

Macon, Ga., Dec. 7.—Books kept by the clerk of the superior and the city courts and those of the county ordinary were given an examination by the grand jury and reports upon the same will be made in the general presentments some time this month. The grand jury has not brought to a close all of its jury room work as several cases are yet to be investigated and a few more indictments on one charge and another are expected.

EXPLOSION IN MINE

Reported That 700 Miners Were Entombed In West Virginia.

SAID TO BE DUST EXPLOSION

Accounts Are Meager, but It Is Feared the Accident Is a Serious One—A Company Has Sent Physicians to the Scene of the Explosion.

Pittsburg, Pa., Dec. 7.—Reports from Wheeling, W. Va., say [illegible] hundred miners are entombed at Jacksonburgh, W. Va., where an explosion occured Friday. Two Associated Press men are on their way to the scene of the explosion.

Fairmount, W. Va., Dec. 7.—It is said to have been a dust explosion. Nothing is known here of the number of men in the mines at the time of the explosion, but from the fact that the coal company which controls the operation has stopped traffic and is only sending out cars carrying physicians and intimate friends of the miners it is feared the accident is a serious one. The mines are a part of those owned by the Consolidated Coal company of Baltimore.

The company has mines in Fairmount, Clarksburg, Somerset and Cumberland.

Clarence W. Watson, of Baltimore is president. The explosion was heard eight miles distant.

RUMORED ANARCHIST PLOT.

Budapest Newspaper Publishes a Sensational Story.

Budapest, Dec. 7.—The Naja a newspaper of this city, published a sensational story Friday to the effect that an anarchist plot upon the lives of Emperor Francis Joseph and Archduke Francis Ferdinand, the heir to the throne, has been discovered.

The story would appear to be founded on the fact that the Hungarian police were informed recently that four well known anarchists had left Geneva for Hungary with the object of making an attempt upon the life of Francis Ferdinand. The police were instructed to watch the frontier closely but so far as is known no anarchists have yet entered Hungarian territory.

Story Discredited.

Vienna, Dec. 7.—In answer to an inquiry concerning the reported anarchist plot against the lives of Emperor Francis Joseph and Archduke Francis Ferdinand, it was officially declared here that the government has no information whatever to bear out the suggestion that the anarchists who are supposed to have left Geneva for Hungary had any designs upon the emperor or the heir to the throne and the idea of any such attempt is discredited.

FINANCIAL SKIES BRIGHTER

Money Stringency In Chicago Is Said To Be Nearing Its End.

Chicago, Dec. 7.—There were indications here Thursday that the money stringency is nearing its end.

The banks reported that no withdrawal notices were being filed, while many previously given were being cancelled. Deposits again are on the increase. No more clearing house checks were issued during the day. On the contrary, the banks received large amounts of the emergency currency.

Already with Christmas three days away the volume of registered mail handled at the Chicago postoffice is 50 per cent in excess of what it was this time last season.

What the Ladies Say About Their Good Work.

Except that Gainesville's rapidly increasing population can hardly keep pace with the permanent institutions, it would seem almost unnecessary to advertise the annual bazaar given by the Woman's Guild of Holy Trinity church.

The older citizens all know about it. They all come, big and little, young and old. They know where to get their Xmas presents, their baby's caps and gowns and children's toys. They know where to find a fat turkey for Sunday's dinner, candy that will rival Huyler's and the best of fruits, cakes and pies. We want to tell the new comers about it. The visitors and the students. Just come and try their chicken salad and their oyster fry. This Woman's Guild is helping to build up the town. They comfort the weak and weary, welcome the stranger, and the beautiful new church on the corner which is such an ornament to our town was largely made possible by the work of this Woman's Guild. Come to the opera house on Thursday, December 12th, and you will come again when we give another bazaar.

A SERIOUS WRECK.

Light Engine Collided With Citra Train Saturday Afternoon.

There was a serious collision on the Atlantic Coast Line Saturday afternoon, when an engine running extra north-bound for Gainesville, collided with the engine pulling the Citra train. The result was that, while there was no serious personal injury, the two locomotives were badly damaged, and it is likely that traffic will be blocked until some time today.

The collision occurred near the forty-two mile post, about one mile north of Kelley's mill, Prairie Creek. It is said that there was a crash when the two engines came together which could be heard for a mile.

It was fortunate that no one was seriously injured, though the property loss will be great.

Will Start a Dairy.

Geo. Estabrook, one of the efficient engineers in the employ of the Atlantic Coast Line, is in the city.

Mr. Estabrook, who has been making his headquarters in High Springs, is off on a leave of absence, during which time he proposes to make some extensive improvements on his farm a short distance west of the city. Realizing the need of another dairy in this city, he has decided to establish an up-to-date, modern enterprise of this kind, and will be ready for business in a few weeks.

A. R. Harper Piano Company Are Enjoying a Fine Eusiness.

What may be termed a miraculous success has been the great piano sale, which has been going on for the past week at the rooms of the A. R. Harper Piano Co., 104 West Liberty street. During the week just closed Mr. Harper has succeeded in disposing of a large number of pianos, but they were sacrificed in order to permit the firm to quit the store, which they will do in a few days.

This enterprising firm advertised through The Sun this great sale, explaining that they intended to close their store here and concentrate their stock in Jacksonville, where they have the advantage of a better freight rate, being in a seaport town. The public took them at their word, with the result that many sales were made during the past week.

This sale will continue for six days longer, but there are only seven instruments left out of this great stock, so it is suggested that prospective purchasers call early in the week. These instruments will be sold at cost price, being reduced from $75 to $100 from the regular selling price, with terms to suit.

When to Go Home.

From The Bluffton (Ind.) Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children first. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all druggists.

To Revive Curfew Law.

Atlanta, Dec. 7.—A city ordinance amending substantially to a revival of the old curfew law will be recommended to council by the police committee at an early date. The proposed ordinance will require all persons under 16 years of age to be attended by a parent, guardian or chaperone if on the streets after 7 or 8 o'clock in the evening. There has been no little trouble of late, the police, caused by the lads and lassies of the town staying away from home until midnight or later. The police station frequently has calls from parents who are trying to find their son or daughter, or their daughter and somebody else's son.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for $5 a year; $2.50 six months; $1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for $1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Today's ads. reflect the enterprise of "today's people" in this city.

Today's ads will throw light on what things should cost these days.

Today's ads. are full of things to quicken and enthuse "bargain hunters."

Mallory for the Senate and Stockton for Governor is the leading ticket at the present writing.

If you are not represented in the advertising columns of today's Sun you're not "in the swim."

Ad-answerers know values; can "weigh" propositions; and are eager to find genuine bargains or opportunities.

The value of farm products for 1907 is $657,000,000 greater than for the year previous. Not much hard times about that.

A safety device for railroad switching operated by two men in a tower, where formerly thirty men were required on the tracks, saves lives—and wages.

The latest "wireless" message from Tallahassee is to the effect that Governor Broward will convene the Legislature in extra session about the middle of January.

If President Roosevelt will use the "Big Stick" sufficiently on Congress to compel that body to remove the tariff on wood pulp, thereby squelching the white newspaper trust, he will have gained the lasting gratitude of every newspaper publisher in the country.

Fishing in the neighborhood of Tarpon Springs has been quite good for some time past. Among those who made large catches of fish is Fred Nauman, who in eight months, caught 100,000 mullet, which netted him the nice little sum of $1,500. Some claim that mullet are getting scarce. It does not seem so according to the above report.—Pensacola Advocate.

Reading from the newspaper comments Hon. Jon L. Farris is "butting his head against a stone wall" in opposing Hon. Frank Clark for re-election to Congress. The man does not live in the second district who can defeat Frank Clark at this time. A few disappointed politicians and people who have a personal grievance may vote for his opponent but they'll feel mighty lonesome when the votes are counted.

Editor Jordan of The Punta Gorda Herald has established "fish stories" long enough to write the following "author-graph" regarding rattlesnakes: The inquisitive Tampa Tribune is informed that the rattlesnake killed in Dade City Democrat, which was a little more than six feet long, was a little over three feet in length, as the length of a rattlesnake is usually about six times the largest circumference. But that rattlesnake must have been a boa constrictor or anaconda with a string of sleigh bells on its tail."

AGRICULTURE IN HIGH SCHOOLS.

The Florida Agriculturist refers to an important matter in a leading editorial as follows. "It is becoming very evident that if we wish to keep up our farming interests we must educate the children to stay on the farm. Of course, it will be a difficult matter to get teachers that are competent to teach agriculture. It reminds us of a squib which we saw in an exchange, to the effect that while it might be possible for a teacher who had never lived in the country to teach agriculture, they could not teach farming. Really this is a distinction without a difference. We feel confident that a way will be found to insure competent instruction in agriculture in country schools. But that is not enough. We need educated farmers, and the country schools cannot carry the course far enough. There is need for higher education in these branches, just as is given to those who intend to enter a business life. To secure this, a system of agricultural high schools is greatly needed. We have agricultural colleges, but they are so expensive, even though tuition is free, that few of the farmer boys get any benefit from them. A bill has been introduced into Congress to provide for such a system of agricultural high schools. The plan proposes that a sum equal to 10 cents per head of the population be given to each State for the support of the schools, which it is planned shall be limited to one for each ten counties. One of our exchanges has figured that Massachusetts would have but one school and Texas twenty four, and that the first named State would have about $300,000 for her one school, while Texas will get only about the same amount for her twenty-four. This hardly seems equitable, and we hope that if the bill becomes a law it will be so amended as to make its provisions more impartial. We approve of the idea and should be glad to see something of the kind enacted into law."

RUSHING THE EXTENSION.

There is no sign of hard times along the railroad camps on the keys. From Long Key to Knight's Key, a distance of fifteen miles, there is a camp at nearly every mile post and the work is going ahead with astonishing rapidity.

The big engine recently landed at Knight's Key has helped the work wonderfully at that end. The track is being lengthened as fast as cross ties and rails can be received.

Long ago it was stated that the first train would reach Knight's Key by January 15th. The engineers are now trying to get there ahead of that date and there is every reason to believe they will succeed.

The viaduct across Long Key channel will be finished within a week and in less than a month trains will be running over it. Beyond the viaduct a great deal of the road bed is ready. By the 14th of the month it will only be a question of how fast the track can be laid.

We are still of the opinion that the work will not be entirely suspended after the road reaches Knight's Key. There may be a reduction of the force but we believe a great many of the men will be sent to re-establish the camps south of Pink Key and the engine now at work on Knight's Key will be used to bring the track south. As a matter of fact there is practically nothing left to be done but bridge work and the laying of track. The force of men now at work could finish the road from Pine Key to Key West in less than six months.—Key West Citizen.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

BATTLESHIP AND GUN OF FUTURE

The running fight which followed the sortie of the Russian fleet at Port Arthur, and the decisive battle of Tsoshima Straights, crystalized into fact many theories of the design and maneuvering of warships, and settled, probably for many years to come, the vexed questions of the size of ship, the type of gun and the best formation in which to fight a naval action. The battleship of the future will be of great size; displacement will be not less than 20,000 tons, and this will increase so rapidly that a 30,000-ton ship will probably be afloat before the close of the next decade. The main armament will consist exclusively of heavy guns of not less than 12 inches caliber, and, unless the difficulty of erosion can be overcome, the 12-inch will give place to a 13-inch and, possibly, to a 14-inch piece. Future engagements will be fought at an extreme range, the extent of which will be limited only by the ability of the fire-control officer to see the fall of the shots. The determination of the range at which an engagement shall be fought will lie with the fleet which possesses the fastest speed.—Navy Number Scientific American.

How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diptheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. For sale by all druggists.

Wants To Return to Whipping Post.

Augusta, Ga., Dec. 7.—Hon. C. A. Pouget, recorder for the city of Augusta, has created something of a ripple of excitement in Augusta by recommending in his annual report the revival of the whipping post. He wants this method of punishment made possible all over the state of Georgia.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

DRANK SARDONIC TOAST.

Last Act of Chicago Saloonist Who Suicided.

Chicago, Dec. 7.—Two saloon keepers committed suicide under remarkable circumstances Thursday and the members of their families attribute their deaths solely to worry lest Sunday closing agitation of the Law and Order League ruin the saloon business and cause the saloonkeepers to lose the savings invested in the saloons.

The suicides are Matroni Peter, who shot himself in the head, and was discovered dead on a barroom floor; Orowick Kasper, shot himself in head; his last act before closing saloon was to drink a sardonic toast to the Law and Order League, saying:

"They're ruining me, all right."

INTENDED BLACK HAND VICTIM.

Effort Made to Blow Up Store of an Italian at New Orleans.

New Orleans, La., Dec. 7.—An effort was made here early Friday to dynamite the grocery store of Charles Graffini, an Italian, whom the police believe was the intended victim of a black hand organization.

The bomb struck the sidewalk and exploded without doing further damage than the shattering of all windows in the immediate neighborhood of Palmyra street and Claiborne avenue.

Graffini was a member of the Italian Vigilance committee which was instrumental in running down, capturing and convicting a number of Italians implicated in the kidnapping and murder of 9-year-old Walter Lamana last June.

COBURN'S MINSTRELS.

Best Performance Ever Witnessed in Gainesville.

Numerous minstrel shows have struck Gainesville within the past few years and quite a number of them were good but the performance of J. A. Coburn's Greater Minstrels last night was the best ever witnessed in this city. From the time of the going-up of the curtain to the finale there was one continuous round of applause.

Mr. Coburn, one of the old stand-bys of minstrelsy has gathered around him this season the brightest bunch of stars he has ever had.

The first part setting is gorgeous. The different colored lights that were thrown on the performers during this part tended to show them off to perfection. The songs were all good. One young man, Mr. Roy Peck, the Hoosier Crow, has a swell song, and he is the part. Another song in the first part that was a winner was that of Mr. Robert Hockett, the basso profundo, who has the best bass voice heard in Gainesville for years. Mr. T. B. Grammer, a Bainbridge, Ga., boy, who is the middle man and who has a sweet voice, sang "The Last Rose of Summer is the Sweetest of Them All," and he received a well-earned round of applause.

Dan Holt—"The Georgia Cotton Blossom," was as funny as ever and made a big hit in his monologue. His songs on the end also went well. Ed Gerken, the "Florida Cracker," put on "Much Obliged," and was received enthusiastically. Ed is a Florida boy and has just broken into the minstrel business. If he keeps up as he has started Primrose and Dockstader had better look out for their laurels. He and his partner, Tom Galvin, the dancing boy, have an act in the olio that is a winner, and was funny from start to finish, and the audience appreciated both thoroughly.

The balance of the olio, the wire walkers, the strong men and the Chinese and the Irish were good.

Taken all in all, J. A. Coburn's Greater Minstrels is the best ever seen in Gainesville, and a return date will be awaited with pleasure by the theater goers of this city.

COURT HAS ADJOURNED.

Having Disposed of Criminal Docket, Will Rest Until February.

Having disposed of the criminal docket, the fall term of the circuit court for the Eighth Judicial Circuit, Alachua county, has adjourned until February 4, 1908, when Judge Wills will hold a special term for the trial of civil cases.

A large number of criminal cases were disposed of in one way or another during the term of nearly four weeks, but the civil docket was so congested that it was deemed advisable to set a special term for this.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—Geo. W. Spencer, Holly Springs, N. C. For sale by all druggists.

REV. MR. WAY IN HARD LUCK.

Thief Steals Bicycle and Chickens of Fernandina Pastor.

The Fernandina Record of December 6th contains the following item of interest to residents of Gainesville, where the unfortunate preacher was for seven years pastor of the First Presbyterian church:

"Some thief stole the Columbia bicycle of Rev. E. W. Way on last Saturday afternoon some time between 2 and 5 o' clock while the wheel was standing in front of the manse.

"Mr. Way was engaged in his usual occupation for Saturday afternoon, distributing the folders of the church along the water front. He had left his wheel at his gate and found that it had been removed when he returned home.

"The bicycle is one of the 1902 28 inch frame of the Columbia make and was a present to him from his Gainesville friends when he located there. The wheel was in excellent condition and Mr. Way used it constantly.

"Mr. Way authorized the statement that he will give a suitable reward for the return of his wheel.

"Some time ago, someone lifted several chickens from Mr. Way's poultry yard. No trace of the chickens have been found."

University Boys Home.

The University football team has returned from Winter Park, where on Thursday they met the Rollins College team in one of the prettiest and most closely contested games of the season, neither team scoring.

The University boys are still the champions, however, as they succeeded in defeating Rollins a few weeks ago.

Children's

Favorite brand is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucous and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surgoe, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed seventy-three worms. Sold by W. M. Johnson.

OBSTINATE ULCERS

MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into Cancer. Efforts to heal the ulcer by means of salves, lotions and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs are found and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.
